KSRELIEF'S 6TH ANNIVERSARY

Six years of

BOUNDLESS GIVING

& UNRESTRICTED HUMANITY

“ Islam teaches us that we are responsible for helping the afflicted and the poor, and that we must also attempt to preserve human life and dignity whenever possible. The Kingdom of Saudi Arabia has a significant mission to fulfill in delivering relief and aid to all in the world who are in need. Towards fulfilling this mission, we hereby announce the establishment of the King Salman Humanitarian Aid and Relief Centre, dedicated to coordinating and providing international relief to crisis-afflicted communities, alleviating suffering and providing the essentials to allow people everywhere to live good lives. ”

King Salman Bin Abdulaziz Al Saud

Excerpt from His Majesty's Speech during the inauguration of KSrelief on 13 May 2015

Vision

To become a leading center for relief and humanitarian activities and to transfer our values to the world.

Mission

Manage and coordinate relief activities on the international level to ensure the provision of external aid in line with national interests.

Some of the fundamental principles upon which the center bases its operations while leading Saudi Arabia's humanitarian efforts abroad include:

- Providing aid objectively and fairly to all in need.
- Coordinating and consulting with reliable and trustworthy international organizations and institutions.
- Following internationally-accepted criteria for the optimum selection and application of relief programs.
- Unifying the efforts of all parties concerned in the Kingdom's relief activities.
- Delivering aid accurately to eligible recipients, and ensuring that targeted aid is not diverted for other purposes.

DIGITAL TRANSFORMATION

KSrelief is committed to digitally transforming all aspects of its work in order to accelerate and improve the center's performance. Since its establishment, KSrelief has successfully carried out digitalization initiatives which resulted in the launch of several digital platforms, including:

Saudi Aid Platform

KSrelief developed this platform to register the Kingdom of Saudi Arabia's projects and humanitarian, developmental and charitable contributions based on the international standards of the United Nations Financial Tracking System (UNFTS), DAC-OECD and the International Aid Transparency Initiative (IATI). The Kingdom's foreign aid is provided in the form of cash, in-kind grants and concessional loans to promote sustainable Development. It also includes commitments and disbursements. Saudi entities have been trained to classify and input the Kingdom's foreign aid to date, from the time of the country's establishment.

Volunteer Platform

Utilizing volunteers is one of the seven principles of carrying out humanitarian work; many organizations and agencies working in the humanitarian field are keen to include volunteers in the implementation of their programs and projects. KSrelief is a channel through which individuals in Saudi Arabia can become involved in volunteer service related to the Kingdom's international humanitarian aid delivery. The center is committed to training and empowering volunteers to the benefit of vulnerable communities; KSrelief's volunteer program also strives to help achieve one of the Kingdom's "Vision 2030" goals: that of building a culture of volunteerism in Saudi Arabia. The platform was launched in order to enable those interested to easily apply for and become involved in a wide range of volunteer opportunities.

E- Donation Portal

The E-Donation portal is the only official platform in Saudi Arabia that provides its users with the ability to donate directly to support KSrelief's humanitarian and relief projects in over 60 countries around the world. Users are able to target their donations to support a specific project, a specific country, or simply make a general donation that will contribute to support KSrelief's overall work.
