SAUDI ARABIA SENDS RELIEF AIRLIFT TO SUPPORT THE PEOPLE OF SUDAN

KSrelief, on behalf of Saudi Arabia, sent a relief airlift to Sudan as an urgent response to help alleviate the suffering of IDPs and families affected by recent events in the country. The airlift embodies the noble humanitarian commitment of the Saudi leadership and people to responding swiftly to international crises by providing urgent relief and other emergency assistance.

Assistance provided to Sudan includes an airlift and a sealoift to ensure the rapid arrival of aid to those who need it the most. In addition to the aid items, KSrelief has also assigned a team to supervise aid delivery and distribution on the ground in coordination with competent local authorities. This team will also closely assess the scope of ongoing humanitarian needs and conduct monitoring and follow-up on the movements of IDPs and of their gathering places.

SAUDI NATIONAL DONATION CAMPAIGN FOR SUDAN

KSrelief has launched a national donation campaign for Sudan to facilitate contributions by the public to support the provision of food, medical and other aid to people in need in Sudan. The campaign will collect donations through the online "Sahem" application and website, and will also accept direct bank transfers to KSrelief's accounts. All monies donated to the center's relief efforts reach targeted beneficiaries, as no administrative fees are deducted from the public's contributions.

TYPES OF AID

MEDICAL AID

To meet the health care needs of hospitals and health centers

FOOD BASKETS

One food basket will provide nutritional support to a family of seven for one month

SHELTER MATERIALS

Including tents, shelter kits, and hygiene kits

REHABILITATING HOUSES DAMAGED BY FLOODING IN THE SUDANESE CITY OF TOKA

Many areas in Sudan were damaged by the torrential rains and flooding that devastated the country in September of 2020. The number of fully-damaged homes reached 55,286, while an additional 56,458 were partially damaged.

KSrelief implemented the rebuilding project in Tokar in Sudan's Red Sea state, as it was one of the areas most affected by the damage; 2,415 houses were damaged, and 12,075 people were forced to live out in the open.

OBJECTIVE

Finding safe shelter for the most vulnerable inhabitants of areas in Sudan affected by flooding; the program will help targeted recipients who are unable to secure for themselves basic life necessities such as housing, food, medical treatment, and education.

37

HOUSING UNITS (16 square meters each)

Equipped with fans, lights, and electrical sockets powered by solar energy.

37

BATHROOMS (one for each unit)
